

Ramadan 2022 in Schools

TM

- ✓ We encourage empathy and understanding, urging schools to make Ramadan a highlight of the calendar as with other faith groups, allowing students a voice to share what their faith means to them.
- ✓ Students may need more time to adjust their schedules throughout Ramadan, so consider accommodating more breaks, a dedicated space to pray indoors, and ask if students feel comfortable doing PE or not.
- ✓ For Muslim staff, consider the above, and where possible allow said staff to attend after-school meetings virtually via Teams or Zoom.
- ✓ Take time to engage Muslim parents and students about Ramadan and what staff can do to accommodate, via online portals or online surveys.
